Engineered Building Systems to Represent IEC

Engineered Building Systems (EBS) now proudly represents International Environmental Corporation (IEC) in the Wilkes-Barre, Allentown, Philadelphia, and Harrisburg, PA territories, as well as in Southern New Jersey and the state of Delaware.

International Environmental Corporation (IEC) based in Oklahoma City, OK, is a market leader in hydronic fan coil systems for hospitality, multi-family, healthcare, and education. They offer industry-leading flexibility in sizing and configurations for a broad range of building applications, unmatched engineering and application support, and innovative replacement and retrofit solutions for fan coils in applications where limiting downtime is crucial to a business' success.

Engineered Building Systems looks forward to expanding their offering in these territories with the addition of IEC.
